

SOCIAL & EMOTIONAL LEARNING FOR EDUCATORS

Our Social and Emotional Learning Course is designed for teachers looking for effective classroom strategies to enhance their engagement and connection with students.

COURSE OUTLINE

Social and Emotional Learning (SEL) is the process through which young people and adults acquire knowledge, skills, and attitudes to develop healthy identities, manage emotions, and achieve personal learning goals. This course introduces teachers to the principles of SEL, showing how these strategies can be applied in the classroom to empower students to improve their academic performance while decreasing stress and anxiety.

COURSE OBJECTIVES

Overall objectives of the mobility

- Become familiar with the principles of SEL
- Learn how to implement these principles in different classroom contexts
- Understand the key features of self-management
- Explore how to improve social awareness in the classroom
- Consider how to apply skills of conflict resolution, problem-solving, active listening etc. in the classroom

Added value of the mobility

As well as learning about SEL, participants have the opportunity to refresh their English language skills. By connecting with fellow educators from all over Europe, participants will benefit from sharing experiences and expertise. The mobility offers valuable networking opportunities for future collaboration between individuals and institutions.

Activities to be carried out

Project and discussion-based classroom activities designed to explore key elements of SEL such as:

- Strategies to build self-management skills in students
- Insights into social awareness in the classroom
- Communication skills and conflict resolution
- Culture and heritage trips as a chaperoned group

Expected outcomes and impact

The course provides a valuable professional development opportunity for teachers and educators to become familiar with emerging approaches in contemporary pedagogy which draw a vital connection between students' learning outcomes and their social and emotional development. This mobility offers teachers the chance to discuss these approaches with European colleagues while learning key elements of the practice. Further positive outcomes include familiarisation with an international setting, and the opportunity to cultivate new contacts beyond the course.

CULTURAL PROGRAMME

The course is delivered at Atlantic Centre of Education in Galway on Ireland's 'Wild Atlantic' Coast, and participants will have ample opportunity to learn about the cultural heritage of both Ireland and the local area. The programme includes a full-day cultural tour of a local area of scenic and heritage value, a guided historical walking tour of Galway City, and afternoon social and cultural activities. Our staff are happy to suggest other tours and events to enjoy during your stay in Galway.
