MISSION STATEMENT

"The mission of Atlantic Language is to provide excellent tuition, accommodation, customer support and related services to enable and support the life and learning objectives of our students, catering to their specific educational needs in the unique social and cultural environment of Ireland."

OUR EDUCATIONAL APPROACH

To achieve this, Atlantic's educational approach is underpinned by the following:

- A communicative approach in our teaching methods;
- Students prepared to be able to communicate competently outside of the classroom;
- Lessons carefully prepared within the remit of the core syllabus and corresponding level;
- A focus on the development of all four skills, both receptive (listening and reading) and productive (speaking and writing);
- A variety of approaches best-suited to each particular situation e.g. process writing, guided discovery;
- Students becoming autonomous learners, with individual strengths and weaknesses identified by the class teacher and the Academic Department;
- A subsequent focus on study methods and skills which marry with students' personal preference and style;
- Increased confidence having been prepared for real-life communication through the achievement of Atlantic Language's objectives for them.

Atlantic Language Objectives:

- Quality Language provision through learner-centred instruction in all classes;
- Development of autonomous study and language learning skills;
- Promotion of cultural and linguistic excellence;
- Provision of high-quality admission, counselling and general student services.
